

Recommended Roasting Accessories

Below are accessories that we recommend and are available through many stockists.

Roasting Pan

We used the Scanpan Ceramic Titanium Classic 34x22x6cm – 3lt Roasting Pan, Made of pressure cast aluminium, its thick base ensures even distribution of heat.

Roasting Rack

We used a 24cm x 17.5cm roasting rack manufactured by d.line, which gives an offset gap of approx 15mm from the base of the roasting pan to the rack itself.

Disposable Aluminium Tray

We used the thicker disposable aluminium BBQ tray.
