# QUALITY FEATURES STANDARD

## THE TRADITIONAL SOVEREIGN OUTBACK, BUSHMAN, ALPHA & BRAVO MODEL BBQS ARE PACKED FULL OF FEATURES

- Your three in one - BBQ, stove top & oven – quality onboard compact cooking solution (selected optional accessories recommended for optimal stove top and oven performance)
- Fully seamless welded BBQ
- Double skinned base compartment reduces heat transfer to BBQ exterior
- Baffled air intake reduces chance of gas BBQ blowing out in strong winds
- Adjustable steam vent on top of lid
- Lockable BBQ lid - easy to carry and store away
- BBQ plate manufactured from 3CR12 material, being a superior cooking surface with excellent thermal conductivity and rust resistance
- BBQ plate features an over-sized splashback, minimising fat splattering in to the hood
- Wind guards on each side of BBQ plate, contains unwanted fat splatter when cooking with lid open
- Removable BBQ plate with handles for easy cleaning
- Functional removable fat tray system and sealed base compartment
- Internal components can be quickly and easily removed for efficient cleaning and servicing

## Testimonials

"Clearly, an extraordinary amount of thought has gone into this product. It's a gem!" **Greg**

"Possibly the best quality marine BBQ on the market."  
**Raife Past Commodore SYC**

"Four and a half years ago, I bought an Alpha gas bbq from you. We have since sailed our boat from the UK and arrived in Bundaberg last week. The BBQ has been brilliant and a favoured cooking method for most of our journey."  
**Vessel "TULU"**

"A note of thanks to Sovereign for the outstanding manner in which you attended to my BBQ problems. I still do not know what was going wrong, but Sovereign never gave up on assisting me with advice and spare parts, even beyond any reasonable warranty period. The final solution of replacing the BBQ with a brand new one, volunteered by Sovereign some years after the purchase, was a step that few companies would entertain. The new BBQ is a faultless performer in all conditions, exactly as I had expected, but the exemplary customer care shown by your company is what I will always remember. You deserve recognition for that and I am pleased to strongly endorse Sovereign both for the high quality of the product, and for the very high level of customer service. I have not encountered better. Thanks again."  
**Neville**

"Thank you very much for the great service. It has been a long time since we have experienced such a genuine and positive approach to customer service. We will have no problem recommending your products." **Dwight & Jen**

"The bbq is fantastic. Years of use and still in great shape! You have my vote that it is the best around." **Bill**

"Thank you for the prompt, courteous service. I have to say my Bravo far exceeds my expectations, it made me think of the money I have wasted on the other brands & types over the last 15 years! It really is exceptional, practical, well planned, easy to use, easy to clean & a gas miser. I have no regrets spending the money. Am looking forward to using it on the boat when delivered early April & will need to work out the appropriate mounting system." **Happy Customer**

"Well done & I won't have any qualms recommending Sovereign BBQ's to my family & friends." **Grahame**

"Received BBQ today. Thanks a great product and great after sale service, thanks again." **John**

"Just a quick note of thanks, we are on the boat, its windy - 20 kts + and the BBQ is staying alight - fantastic. Many thanks for the excellent back up you have provided." **Rob & Wendy**

"Sweet as with the BBQ but enclosed photo to modification for wall brackets and this way do not need screwdriver when departing the Condo. Bracket made of 316 SS also so looks the part and user friendly. You are right well-made and best BBQ on the market." **Ray**

"Many many thanks for everything.... always great to work with yourselves ... we may not be your biggest client but we are one of your biggest fans!" **Peter**

"Guys, a quick note to say thank you for your product!! We have had it installed on Sea Mist & works a treat, from toasted cheese sandwiches, eggs & bacon, to grilled chops & sliced potatoes. Cannot wait to try a roast, maybe this weekend." **Ron**

"As it is over a year ago that we purchased our two Sovereign BBQ's, one for home and one for our yacht, we thought some feedback may be useful. We are absolutely delighted with both BBQ's. After cruising our gulf for almost 40 years now, with many holidays being 3 to 4 month cruises, a good BBQ is naturally a prerequisite for enjoyable cruising cuisine. Like most of our friends, we've always had trouble finding a BBQ that could stay alight in a breeze, was robust and corrosion proof. The Bravo model is amazing - it is used all year round and never comes off the pushpit. Strong winds don't blow it out, it cooks evenly, and as we use a Teflon mat, there is seldom much cleaning required. It really is one of the best decisions we've made. Thanks again, you have a well-designed, well made and very functional product." **Ross & Jane**

"My wife Candi and I wanted to let you know that since purchasing the "Alpha" BBQ flat/grill plate we have gotten rid of our oven - as we live on our Catamaran and it has opened up so much more room for us in the galley. We have cooked anything and everything on our new BBQ. We have cooked meatloaf, biscuits, casseroles of assorted dinners and we have even cooked cookies. It also cooks a mean steak. We have enjoyed our purchase so much that our inside stove is very seldom used anymore which makes cleaning up easy. My wife and I have been out in 30+ knots of breeze at anchor and it still lights and cooks as normal which we have never had that happen before with our other BBQ's. Again Thank you." **Frank and Candi**
